SAMEER KOKATE

Senior ERP Consultant | AI-Powered ERP Automation | Digital Transformation | Discrete Manufacturing

Mumbai, India • +91 96641 92578 • sameerkokate1993@gmail.com • linkedin.com/in/sameerkokate

Open to: India | Malaysia | Germany | Netherlands | Sweden | Remote

PROFESSIONAL SUMMARY

Results-driven ERP Consultant with 8+ years and 10+ full-lifecycle ERP implementations for discrete manufacturing clients across India and Malaysia. Deep expertise in abas ERP (by Forterro) - fit-gap analysis, MRP, production planning, business process reengineering (BPR), compliance, and shopfloor execution. Currently designing and configuring AI-powered automation packages within abas ERP - defining functional requirements and solution scope to eliminate manual manufacturing workflows. Proven ability to lead cross-functional teams, drive 30% operational efficiency gains, and architect multi-jurisdiction compliance (GST/SST/e-Invoicing). Targeting Lead Consultant or Principal Consultant roles.

CORE COMPETENCIES

AI & Automation	AI-Powered ERP Automation • Package Solution Design • Functional Requirements • Intelligent Workflow Design
ERP	abas ERP by Forterro (Expert) • Full ERP Lifecycle • Fit-Gap Analysis • ERP Rollout • Solution Design
Manufacturing	MRP • Production Planning • Shopfloor Execution • Master Data • Procurement • Discrete Manufacturing
Business Analysis	As-Is/To-Be Mapping • BPR • Functional Spec Writing • UAT • Workshop Facilitation
Project Delivery	Project Governance • Go-Live • Post-Implementation • Change Management • Agile • Scrum
Compliance	GST India • SST Malaysia • e-Invoicing • Regulatory Reporting
Leadership	Team Leadership • Mentoring • Client Engagement • Executive Communication • Stakeholder Mgmt
Tools	Jira • Confluence • MS Excel (Advanced) • Microsoft Teams

KEY ACHIEVEMENTS

- **95% milestone adherence** maintained across multiple simultaneous client projects through structured stakeholder communication, risk registers, and bi-weekly steering governance.
- **30% operational efficiency gain** delivered per client site by identifying and closing process gaps during business analysis and solution design phases.
- **10+ successful go-lives** for discrete manufacturing clients, consistently receiving high client satisfaction during early adoption and stabilisation phases.
- **AI automation packages** designed and configured within abas ERP — defining functional requirements that enable intelligent automation of manual manufacturing workflows.
- **~40% faster implementations** achieved by standardising reusable MRP and compliance configuration templates across subsequent projects.
- **Multi-plant ERP rollouts** across India and Malaysia including multi-jurisdiction compliance: GST (India), SST (Malaysia), and e-Invoicing frameworks.

PROFESSIONAL EXPERIENCE

Senior Business Process Consultant & Package Solutions Specialist — January 2026 – Present

Forterro India (abas ERP) | Mumbai, India

AI-Powered Package Solutions

- Design and configure customized AI-powered automation packages within abas ERP — defining solution scope, functional requirements, and configuration logic in collaboration with the technical development team.
- Identify and map high-volume manual manufacturing workflows suitable for automation — including production exception alerting, AI-assisted supplier communications, MRP-driven purchase recommendations, and inventory variance reporting — translating business needs into functional specifications for delivery.

- Configure abas ERP package solutions using built-in tools and configuration screens, working alongside developers to test, validate, and deploy automation solutions that eliminate manual touchpoints across planning, procurement, and shopfloor operations.

ERP Consulting & Delivery

- Lead end-to-end requirement discovery workshops and fit-gap analysis sessions, designing future-state business processes for discrete manufacturing clients on abas ERP (by Forterro) - spanning MRP, production planning, procurement, and shopfloor execution.
- Drive business process reengineering (BPR) engagements - mapping as-is processes, identifying gaps, and configuring to-be workflows aligned to client operational goals.
- Mentor and guide junior consultants through complex implementation scenarios, conducting knowledge- transfer sessions and supporting their development in ERP delivery best practices.
- Architect multi-jurisdiction compliance solutions covering GST (India), SST (Malaysia), and e-Invoicing frameworks - adopted across multiple client environments.
- Facilitate bi-weekly steering meetings and project governance reviews across multiple client engagements, maintaining 95% milestone adherence and ensuring rapid issue resolution.

Business Process Consultant

June 2017 – December 2025

abas Force (India) Pvt Ltd | Mumbai, India

- Delivered full-lifecycle ERP implementations for 10+ manufacturing clients: requirement gathering → fit-gap analysis → master data configuration → UAT → training → go-live → hypercare.
- Conducted BPR workshops translating complex shopfloor requirements into functional specifications enabling accurate ERP configuration and scalable process workflows.
- Replaced manual production and planning processes with system-driven operations, reducing planning errors and lead time variability.
- Standardised reusable configuration templates for MRP and compliance modules cutting implementation cycle time by ~40%.
- Coached client-side super-users through UAT cycles and training programmes, accelerating adoption and minimising post-go-live support burden.
- Partnered with IT and business stakeholders to integrate cross-module workflows ensuring seamless data flow across procurement, inventory, and production.
- Directed cross-functional workshops to map, analyse, and streamline discrete manufacturing processes aligning ERP capabilities with operational and regulatory requirements.
- Produced comprehensive end-to-end process documentation and SOPs facilitating cleaner audits and supporting continuous improvement.
